## INSTRUCTIONS

### 1. Preparation of Notice of Firearms Manufactured or Imported.

a. This form is required to effect the registration of all firearms imported, manufactured, remanufactured or reactivated by qualified Federal firearms licensees who have paid the special (occupational) tax to import or manufacture firearms.

b. Reactivation of an NFA firearm - Any NFA firearm (including the frame or receiver of such firearm) must be registered to the possessor in order to be lawfully possessed. A Form 2 to register a reactivated NFA firearm will not be accepted if the unserviceable firearm is not registered to the applicant. The firearm in that event, would be considered contraband and would be subject to seizure and forfeiture provisions of the law.

c. Remanufacture of a firearm - Any NFA firearm has been properly destroyed, and thereby removed from the purview of the NFA, which are subsequently restored. (This could also include the converting of semi-automatic firearms to full automatic firearms). Public Law 99-308, §922(o) restrictions apply.

d. Manufacture of NFA firearms - Other types of manufacturing operations which result in the manufacture or making of an NFA firearm. (This includes producing firearms from scratch).

e. A separate Form 2 must be submitted for the four categories of manufacture, remanufacture, reactivation and importation of firearms.

f. If the importation involves more than one import permit, a separate Form 2 must be filed to report those firearms imported under each permit.

g. Serial numbers - Sections 178.92 and 179.102 of the regulations require that an individual serial number, *not duplicating any serial number placed by the manufacturer or importer on any other firearm*, must be placed on the firearm. However, please do not alter existing serial numbers.

h. When large numbers of firearms of the same type and model are reported, lists of serial numbers (double-spaced) may be attached to this form. The number of firearms in item 3b should agree with total number of firearms reported. Lists must be referenced to this form by date and manufacturer or importer in such a way that if pages become separated they can be matched up to the Form 2.

i. Photostatic or carbon signatures are not acceptable. Although typed forms are preferred, pen and ink may be used; forms completed in pencil will not be accepted. Facsimile copies will be accepted, if an original affidavit is on file with us.

j. If any questions arise concerning the preparation of this form, please contact the nearest ATF Office or the National Firearms Act Branch at (202) 927-8330.

2. Where to File Form - Submit completed forms to the National Firearms Act Branch, Bureau of Alcohol, Tobacco and Firearms, Room 5440, 650 Massachusetts Ave., N.W., Washington, DC 20226.

### 3. When to File Forms -

a. All firearms manufactured, remanufactured or reactivated during a single day must be filed no later than the close of the next business day. (27 CFR 179.112).

4. Disposition of Form - The manufacturer or importer must prepare the form, in duplicate, file the original with the National Firearms Act Branch and keep the copy with the firearms records required to be retained at the premises covered by the required special (occupational) tax stamp.

### 5. Receipt of Form by the Bureau of Alcohol, Tobacco and Firearms-

a. The receipt of this form properly prepared and executed by a manufacturer will register the firearms listed on the form to the manufacturer or importer, with the exception noted in item 1f. of these instructions.

b. Timely receipt by ATF of a properly prepared and executed form and timely receipt by the Imports Branch of a copy of ATF Form 6a (required by 27 CFR 178.112) covering the firearm(s) reported on the form by the importer, will register the listed firearms to the importer.
